## THE THOUGHT MASTER

### KEYNOTE INTRODUCTION

Our next session is around Controlling Thoughts.

Everything material, every decision, every emotion, and every endeavour had to start with a basic building block: A Thought. The control of thoughts or the inability thereof creates every individual's path in life. Every successful person had to control their thoughts towards what they want, and consciously stop thoughts of what they don't want. Our next speaker is a spiritual leader who invented the Traffic Light of Thoughts: Stop limiting thoughts, switch to expansionary thoughts, and Go.

We are happy to have with us a Behavioural Intelligence Expert and engaging keynote speaker. He works with various business industries from Dubai to New York and today he will share with you the Master Key of Controlling your own thoughts to reach your worthy ideals and goals.

Our next keynote speaker is an Authority in the field of Thought Control. He draws from his own +25 years work experience, leading teams in multiple business industries including banking, energy, marketing communications, facilities management and online marketplaces.

Let's give a very warm welcome to,,,,,

## THE SUCCESS BOOSTER

### KEYNOTE INTRODUCTION

Our next session is around unveiling the Secret of Success and ways to boost it.

Every human is born with all the required faculties to carve their own successful path and sharing their growth journey with the collective growth of humanity. However, conformity and distractions sway or even eliminate one's path to success and make them collect worry and lack of focus instead. There is a Master Key to correcting any path, and we are all going to be guided in finding it, each for our own today.
